

PR Gaz Haus supports government campaign on LPG cylinders

Proving that its liquefied petroleum gas (LPG) products meet the quality and safety standards of the government, PR Gaz Haus has set up cylinder maintenance units in its refilling plants and has contracted Goodwill Metal Corporation, a Bureau of Product Standards (BPS) accredited re-qualifier of LPG cylinders.

To ensure that cylinders introduced to the market are well-maintained, individual PR Gaz Haus refilling plant has its own Cylinder Maintenance Department that regularly checks the quality of the LPG tanks. Cylinders are systematically sorted for deformities and units with deformed foot-rings, collars and broken and loosen hand wheels are repaired. The work of these departments ensures that franchised and company-owned stores receive cylinders of "quality" and "good" rating.

As PR Gaz continuously ensures the re-qualification of its LPG cylinders, nearly half of all 11 kilogram cylinders in PR Gaz Haus outlets are already pre-qualified and marked under the "PR Gaz" brand. To date, 31,787 cylinders (11-kg. type) from Goodwill Metal Corporation have been re-qualified.

The company's move is in line with government's efforts to monitor the LPG industry and enforce measures to curtail illegal practices of unscrupulous businesses. The Department of Trade and Industry (DTI) has linked up with the Department of Energy (DOE) to form a joint LPG enforcement activity to protect the consuming public from hazards posed by unsafe and uncertified LPG cylinders. The DTI clamps down on traders selling unmarked, untested and substandard cylinders, while the DOE checks on under-filled and tampered units.

Recently, PR3 and PR2 Gas Refilling Plants have passed the re-qualification test conducted last April and August 2006 respectively. PR4 Gas Refilling Plant is scheduled to be re-qualified this September. Plant re-qualification is done every five (5) years as a standard requirement to maintain suitability and safety in the daily running of the LPG refilling plant. These measures ensure that all PR Gaz cylinders are of the exact weight.

The slogan "**Maayos na Serbisyo, Timbang ay Wasto, Kayo ay Panalo!**" is PR Gaz Haus' commitment to provide quality and safe products to its customers.

MESSAGE FROM THE CHAIRMAN

My warmest greetings of growth and prosperity! I am pleased to announce the arrival of our corporate newsletter, the PR Gazette.

This newsletter aims to keep everybody closer together by being informed of the current events of our company. The news and tidbits of information contained in this publication represent developments and achievements of the PR Gaz Group of Companies. The contributions and collective efforts of

every department and employee made the realization of PR Gazette possible.

The creation of PR Gazette mirrors our company's commitment to push for greater achievements in our delivery of quality products and services to our customers. As year 2006 draws to a close, may we be even more

inspired, through the news and developments reported in PR Gazette, to do even better in the years ahead. The continuous growth in our franchise network and the improvements we are instituting in our operations to meet the challenges of expansion are testament to the company's dynamic growth. May we continue to give our usual collective best and quality work as we drive the company to soar to greater heights in the coming years.

I commend the staff for their participation and I encourage everyone to take part in the succeeding issues of this newsletter. Please read it, pass it on to your co-workers, and share it with your family and friends. This is your newsletter and you are part of it.

My warm regards to everyone.

Your CEO,

 NELSON PAR

Accounting system computerization
nears completion

Started August 2005, the computerization of the accounting system of the PR Group is now nearing completion and is expected to be finished by the end of October this year.

To achieve full automation within expected target date, all area accountants are now fast-tracking the encoding of transactions. Financial statements are then generated and audited to check if adjustments are to be made on the automated system.

Once fully operational, duties and responsibilities of the accounting staff will be re-aligned and synchronized with the new accounting system.

FRANCHISE NETWORK NEWS

1st Franchise Conference held

The company held its First Franchise Conference last June 23 to 25 at the Green Valley in Baguio City. Thirteen PR Gaz Haus franchisees, together with their families, attended the event.

The three-day gathering gave franchisees the opportunity to know other franchisees, share experiences and tips in running their PR Gaz Haus franchised business. PR Gaz officials led by company CEO Nelson Par and COO for Franchising Siu Ping Par briefed participants in the conference on developments in the franchise network and the company as a whole.

The conference was considered successful and everyone expressed their enthusiasm for the next staging of the event.

(Mr. James Mazo, franchisee of Imus 2 was not able to attend because the conference coincided with his preparations for his June 28 wedding. Congratulations to Mr. Mazo from your PR Gaz Haus Family!)

Participants pose for a souvenir shot.

Entrepreneur names PR Gaz Haus as one of 2006 Most Promising Franchises

PR Gaz Haus has been named as one of the Most Promising Franchises for 2006 in the 1st Annual Franchise Awards of Entrepreneur Philippines, one of the country's leading business publications.

The awards ranked franchising companies based on their business viability, system stability, growth potential, and extent of franchisee support. The "Most Promising Franchises" citation recognized new franchising companies posting tremendous revenue growth since they joined the franchising industry. The strong business model, concept, marketing strategy, or the combination of these accounted for the record performance of these companies in the market. The award also recognized the potential of these companies to become major players in the industry in the next few years.

PR Gaz Haus gets more franchisees

CONTINUOUSLY expanding its store network through franchising, PR Gaz Haus recently signed in five more franchisees—bringing the total number of franchised stores to 21, to date.

Joining the country's first LPG convenience store chain are Cesar Geronimo of Santa Rosa, Laguna; Mariles Yap of Damar, Quezon City; Jean Decena of Calasiao, Pangasinan; Corazon Bangayan of San Lazaro, Sta. Cruz, Manila; and Francisco Tolentino of Calamba, Laguna. The new franchisees learned of the PR Gaz Haus franchise opportunity while attending the franchise fairs participated in by the LPG firm.

Setting up a PR Gaz Haus franchised outlet can be done in two ways: either

through a start-up business (target areas include Metro Manila, Bulacan, Cavite, Laguna, Pampanga, Bataan, Zambales and Pangasinan) or through owning existing company outlets.

A turnkey package, the total investment for a PR Gaz Haus franchised LPG convenience store, including initial franchise fee, is less than a million pesos.

The PR Gaz Haus store network is backed by an efficient and 'on-time' logistics support with a fleet of 10 LPG transport vehicles (lorries) servicing not only its four major plants, but other refilling stations all over Luzon and key areas in the country as well. The company is also eyeing to expand its network in the Visayas and Mindanao regions.

Joining the network. New PR Gaz Haus franchisees (starting 2nd from left) Cesar Geronimo of Santa Rosa, Laguna, Mariles Yap of Damar, Quezon City and Jean Decena of Calasiao, Pangasinan proudly display their operations manual during formal ceremonies at the PR Gaz Haus headquarters. PR GAZ HAUS FRANCHISEES FROM JANUARY TO OCTOBER 2006

Caja, Jacqueline Y.
MERJACAJ ENTERPRISES
Castillejos, Zambales
February 26, 2006

Ms. Caja is engaged in supplying marketing collaterals and trading consumer products, mostly imported items, in the Central and North Luzon areas.

Dalope, Diosdado 'Dads' R.
DALOPE ENTERPRISE
Malued, Dagupan City
February 22, 2006

Mr. Dalope is a former OFW from Saudi. He was involved in the money market and car trading while his wife is a manager of SSS. His brother Ferdinand who is based in Las Vegas, USA was his major influence for him to get the franchise. He was able to receive our broadcast e-mail and made correspondence. The Dalope Brothers hails from Sta. Barbara & Mapandan, Pangasinan. Having the advantage of knowing a lot of people in the area, they chose Dagupan City as the area for their franchise. After a month of operating the first store

and seeing the huge potential of the business, he signed up for a second store in San Carlos City, Pangasinan in March 26, 2006.

Peralta, Thelma R.
RABINA - PERALTA ENTERPRISES
Bonuan, Dagupan City
March 23, 2006

Ms. Peralta was our landlord when the store opened in 2004. Having known from the start that the business was open for franchising, she only acquired a franchise when her husband, an OFW from Saudi Aramco, decided to come home last January and retire. Having worked for an insurance company before, she thus, knows a great deal of people in the area and is experienced in house-to-house selling.

Marcelino, JJ N.
KING J'S GAS HAUS
Putatan, Muntlupa City
April 7, 2006

Almost fresh from school and learning the ropes of the business through actual experience, Mr. Marcelino now operates the second store of the

Marcelino family. He is the son of our existing franchisee, Walter "Jet" Marcelino. After getting their first franchise, the whole Marcelino family was involved in the business. Thus after 5 months in operations, the family opted to get another store.

Mauricio, Frank S.
FC ENERGY MARKETING
Roces, Bgy. Laghinganda, Quezon City
June 12, 2006

Mr. Mauricio, a sales engineer, was an OFW for more than 10 years and based in Saudi Arabia.

Decena, Jean A.
Calasiao, Pangasinan
October 7, 2006

Engineer Jean Decena and her husband Engineer Willy met Mr. Nelson Par at the 2006 franchise show. The determined couple immediately set an appointment for a presentation. Natives of Calasiao, Pangasinan, they are also currently engaged in developing low-rise/residential houses.

Geronimo, Cesar D.
Santa Rosa 1, Laguna
October 10, 2006

Mr. Geronimo is a plant manager of a manufacturing plant of noodles and other consumer products based in Sta. Rosa, Laguna. He has been working there for almost 5 years now, and thus is very

familiar with the area. This is his first individual business venture. The store is just 15 minutes away from his work his wife will be assisting him in its daily operations.

Yap, Mariles M.
Damar, Quezon City
October 10, 2006

Ms. Yap operates a computer business. She and her brother Rommel both decided to get into the franchise venture. The store will be located along side their existing computer shop.

Bañayan, Corazon A.
San Lazaro, Sta. Cruz, Manila
October 22, 2006

Mrs. Bañayan, an enthusiastic person, is a long-time resident of Sta. Cruz Manila. Together with her family, she runs a business that is engaged in importing heavy equipment from Japan. After knowing of the franchise opportunity, an appointment for a presentation was immediately set. The franchised store is now located near their current office and warehouse.

Tolentino, Francisco Almendras
FRANZEN HOME ESSENTIAL
MARKETING
Calamba, Laguna

Frank is a former OFW who worked for 6 years in Nepal as an Enterprise Development Advisor of the Netherlands Development Organization. Prior to that, he was a Program Director engaged in consulting works for cooperatives all over the Philippines.

PR Gaz Haus binagyo ng benta

Sa nakalipas na mga buwan, nakaranas ng bagyo ang Luzon. Ito ay hindi lamang bagyo ng panahon, kundi pati na rin bagyo ng pagtaas ng presyo ng mga produktong petrolyo—lalo na ng liquefied petroleum gas (LPG).

Inulan ng mga order ang mga tindahan ng PR Gaz Haus at bumaha ng delivery sa mga customers.

Hindi naging hadlang ang masamang panahon at ang pagtaas ng presyo ng LPG sa dami ng orders na tinanggap ng mga tindahan.

SAFETY TIPS

DON'T store or use LPG cylinders below ground level, because LPG is heavier than air. If there is a leak, the gas will collect at a low level & become dangerous in the presence of flame or a spark.
